

Meridian Robotics Inc. - Form 10-Q (Q3 FY2026)

Filed with the Securities and Exchange Commission. For the quarterly period ended August 31, 2026. All figures in USD millions unless noted.

Item 1. Financial Statements (condensed)

Revenue	182.4
Cost of revenue	96.1
Gross profit	86.3
Research and development	41.7
Sales and marketing	22.9
General and administrative	14.2
Operating income	7.5

Item 2. Management's Discussion and Analysis

Research and development expense increased 18% year over year, driven by the actuator miniaturization program and expanded simulation infrastructure. During the quarter, the company consolidated its manufacturing footprint: the Phoenix, Arizona facility was closed in July 2026, with production moving to the Austin, Texas campus. The closure resulted in one-time severance charges of 3.8, recorded within general and administrative expense.

Subsequent events: In September 2026 the company announced a supply agreement with Hallsen AG for harmonic drive components through 2029.
